

Head Light Restoration

*We will restore your head lights
For added safety while driving at night!*

- Headlight lens appear clouded, foggy or dirty?
- Headlight beams appear dim when you drive at night?
- Intense sun, Intense heat, road chemicals, bugs, humidity and acid rain, combined with the heat of the halogen bulb damages the protective hard coat to the point that a ugly discolored, cloudy, hazy appearance develops on the lenses.
- This damage will restrict the headlights ability to project its beam of light at night, and during adverse weather conditions, may diminish the ability to see by as much as 70% plus they look inconsistent with the clean vehicle.
- We at Gia's Detailing can restore your Head Lights to their original condition leaving your car with adequate vision when driving at night and making your car looking good.
- Please feel free to contact us at 631-473-1217 or book your appointment online at www.giasdetailing.com today!
